# The Benefits of Choosing a York® DELUXE DIAMOND® 80 FURNACE

## NEW LEVELS OF COMFORT.

The Deluxe Diamond® 80 furnace operates on two heating levels. Most of the time it runs at low capacity (using less energy) to maintain the required heating level in your home. On bitter cold days, it runs in Turbo-Mode heating capacity, ensuring your home stays warm and cozy at your selected temperature.

## REDUCED OPERATING COSTS.

Replacing an older furnace with the Deluxe Diamond 80 means reduced gas heating bills as much as 25%!

## DURABLE CONSTRUCTION.

Meeting strict quality standards, York® builds each furnace with corrosion resistant materials and sound dampening devices. Plus, 2-stage operation means less starting and stopping, which greatly reduces wear and extends furnace life.

FEATURE	BENEFIT
Aluminized-steel heat exchanger	Extends furnace lifespan and has a 20-year limited warranty
Acoustically insulated blower compartment	Ensures quiet operation
Timed-on, adjustable-off blower	Maximizes your comfort requirements
Blower circulates more air, more often	Promotes even temperatures as filter removes more air pollutants
2-speed induced combustion motor	Improves comfort and efficiency

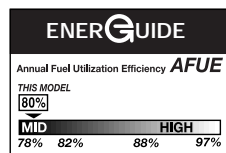

Deluxe Diamond 80 furnaces are backed with a 20-year limited warranty on the heat exchangers and a 5-year limited warranty on all other parts. For further peace of mind, get complete protection against unexpected repair bills.

Ask your York dealer about YORKCare™ Comfort Plans. You could receive complete parts-and-labor coverage for up to 10 years.

1. The Federal Government has established Annual Fuel Utilization Efficiency (AFUE) ratings to allow you to compare the efficiency of furnaces. The higher the AFUE percentage is (like 80%), the more efficient the furnace.
