It's Time to Get Comfortable™

Why Choose a York® STELLAR® 2000 PLUS HEAT PUMP?

NEW LEVEL OF INNOVATION.

Part of York's premium line, the Stellar® 2000 PLUS Heat Pump, takes design and innovation to a new level. This proven, versatile system delivers outstanding style and comfort. And its compact size makes it the perfect fit for any type of installation.

EXCELLENT ENERGY EFFICIENCY.

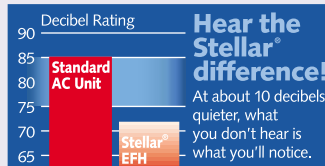

The Stellar 2000 PLUS Heat Pump is the outdoor half of a home comfort system. Delivering ratings of 12 SEER and 7.6 HSPF, the Stellar 2000 PLUS offers excellent performance while reducing your energy costs. Match your high-efficiency Stellar 2000 PLUS unit with a variable-speed air handler (the inside unit) and achieve energy efficiencies up to 13.8 SEER and 8.3 HSPF.

DURABLE, DEPENDABLE DESIGN.

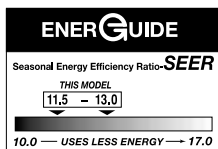

When it comes to long-lasting quality, the Stellar 2000 PLUS Heat Pump shines. Put through a grueling 750-hour salt-spray test, the Stellar 2000 PLUS' tough powder coat finish prevents corrosion. Quality, copper-tube and aluminum-fin condenser coils provide rugged reliability. And, a high-pressure relief valve and temperature sensor work together to protect the compressor during extreme operating conditions.

QUIET COMFORT.

Designed for whisper-quiet operation, the Stellar 2000 PLUS Heat Pump features the York Sound Silencer System™. High-quality compressor mounts contribute to the very low sound level of the Stellar 2000 PLUS.

FEATURE	BENEFIT
Plastic coil guard	Protects coil and enhances system appearance
Solid core filter drier	Extends life of compressor
Compressor mounts and blanket	Reduce sound levels
Upward airflow design	Carries operating noise away from living area
Copper tube and aluminum fin coil	Increase efficiency
