It's Time to Get Comfortable™

Why Choose a York® STELLAR® 2000 AIR CONDITIONER?

A NEW LEVEL OF INNOVATION.

Part of York's premium line, the Stellar® 2000, takes design and innovation to a new level. This proven, versatile system delivers outstanding style and comfort. And its compact size makes it the perfect fit for any type of installation.

MONEY-SAVING EFFICIENCY.

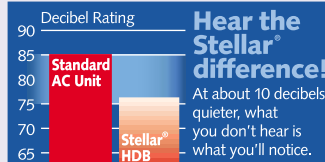

The Stellar 2000 is the outdoor half of a home comfort system. Delivering ratings of 10 SEER, the Stellar 2000 offers excellent performance while reducing your energy costs. And, when matched with a compatible indoor unit—a furnace or air handler—the result is maximum efficiency and extended system life.

DURABILITY YOU CAN COUNT ON.

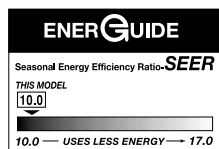

When it comes to long-lasting quality, the Stellar 2000 shines. Put through a grueling 750-hour salt-spray test, the Stellar 2000's tough powder coat finish prevents corrosion and offers durability that lasts for years. Quality, copper-tube and aluminum-fin condenser coils provide rugged reliability. And, a high-pressure relief valve and temperature sensor work together to protect the compressor during extreme operating conditions.

QUIET COMFORT.

Designed for whisper-quiet operation, the Stellar 2000 features the York Sound Silencer System.™ High-quality compressor mounts contribute to the very low sound level of the Stellar 2000.

| FEATURE | BENEFIT |
|-----------------------------------|---|
| Plastic coil guard | Protects coil and enhances system appearance |
| Solid core filter drier | Extends life of compressor |
| Rigid top panel | Reduces operating noise |
| Upward airflow design | Carries operating noise away from living area |
| Copper tube and aluminum fin coil | Increase efficiency |

STELLAR® 2000 10 SEER

| Model | Capacity | Mbh | SEER |
|------------|----------|-----|------|
