It's Time to Get Comfortable™

Why Choose a York® STELLAR® 2000 PLUS AIR CONDITIONER?

A NEW LEVEL OF INNOVATION.

Part of York's premium line, the Stellar® 2000 PLUS, takes design and innovation to a new level. This proven, versatile system delivers outstanding style and comfort. And its compact size makes it the perfect fit for any type of installation.

EXCELLENT ENERGY EFFICIENCY.

The Stellar 2000 PLUS is the outdoor half of a home comfort system. Delivering ratings of 12 SEER, the Stellar 2000 PLUS offers excellent performance while reducing your energy costs. Match your high-efficiency Stellar 2000 PLUS unit with a variable-speed furnace or air handler (the inside unit) and achieve energy efficiencies up to 13.0 SEER.

QUALITY THAT'S BUILT TO LAST.

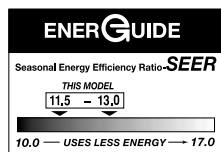

When it comes to long-lasting quality, the Stellar 2000 PLUS shines. Put through a grueling 750-hour salt-spray test, the Stellar 2000 PLUS' tough powder coat finish prevents corrosion. Quality, copper-tube and aluminum-fin condenser coils provide rugged reliability. And, a high-pressure relief valve and temperature sensor work together to protect the compressor during extreme operating conditions.

COMFORT THAT'S QUIET.

Designed for whisper-quiet operation, the Stellar 2000 PLUS features the York Sound Silencer System™. A compressor blanket and high-quality compressor mounts contribute to the very low sound level of the Stellar 2000 PLUS.

| FEATURE | BENEFIT |
|-----------------------------------|--|
| Plastic coil guard | Protects coil and enhances system appearance |
| Solid core filter drier | Extends life of compressor |
| Compressor mounts and blanket | Reduce sound levels |
| Rippled coil fins | Reduce operating costs |
| Copper tube and aluminum fin coil | Increase efficiency |
