Designs For All Tastes

(NAPS)—Mini, flashy, colorful, sleek. In today's world, design is everything. Consider the cellular phone. Just a few years ago, cell phones were a lot larger and not nearly as flashy, colorful or sleek. The same is true with computers, cars and even your air conditioner.

Yes, your air conditioner. Just as important to homeowners but probably not as obvious, are the innovative changes occurring in the world of heating, ventilation and air conditioning (HVAC). HVAC manufacturers are not only working to improve the internal components and increase efficiencies of systems, but some companies are also flexing their creative muscles with design. For example, the York® brand of Johnson Controls now offers three different HVAC system styles to meet almost every homeowner's needs.

Loyal alumni and sports fans can select condensing unit panels bearing the logos of more than 77 different colleges and universities. The logos are applied to painted, customized panels that replace the standard condensing-unit panels on the York Affinity™ series of air conditioners and heat pumps, so homeowners can proudly display their school spirit.

For those who aren't such die-hard sports fans but want to add a little color, the York Affinity series offers condensing unit panels in a choice of seven colors—standard Champagne, Terra Cotta, Jet

You can now get an air conditioner that's camouflaged to blend in with the landscape.

Black, Stone, Bermuda, Chocolate or Gun Metal. These stylish HVAC units are intended to complement homes, landscaping and lifestyles.

For homeowners who don't want to draw any attention to their HVAC system, there's the all-new Affinity concealment unit. The exterior of this system is created with a special camouflage-like painting technique, so every inch of the unit is covered, helping it blend into the surrounding landscape.

For more information about all the HVAC design options the York Affinity series has to offer, visit www.yorkupg.com or call (800) 910-YORK.
